

General Adviser Trainees

We are recruiting to the role of General Adviser trainee.

Volunteers can either train first as a Gateway Assessor trainee and then continue on to the adviser training. Alternatively, volunteers can join the adviser training programme and start from scratch. The training takes 9-12 months to complete, and requires attendance 2 days a week. Once trained, advisers are required to commit to volunteering with us for a further year after qualification. General Advisers give more in depth advice to clients over one or more interviews, write letters on clients behalf, etc.
